

Anti-influenza vaccination

Anti-influenza vaccination is recommended to people. The vaccine is offered free-of-charge by the individual's general practitioner or paediatrician to the elderly over 64 and persons, adults and children, with verified pathologies. Anti-influenza vaccination is provided free-of-charge by Local Health Unit (Servizio di Igiene Pubblica, Azienda Usl di Piacenza, Piazzale Milano 2) to healthcare workers, workers in charge of public interest services, persons who assist people at risk of complications and those who, for work-related reasons, come into contact with animals. All the people that don't belong to the previous categories can buy anti-influenza vaccine in pharmacies with the medical prescription.
